Precision Machine Cut

SIGNITY AS A REPUTABLE SUPPLIER & PARTNER

Signity stands for highest quality, a wide global distribution network, reliable business attitude, consistency, transparency and honesty and is a reputable business partner with integrity.

We support your efforts to acquire new customers and increase your business. You will be able to differentiate yourself and achieve a price premium when working with Signity products.

RESPONSIBLE ZIRCONIA

1. BEST PRACTICE ON ENVIRONMENTAL MANAGEMENT

Having robust systems in place to manage and reduce the environmental impacts of our production, we use innovative processes to ensure we consume natural resources efficiently, and as far as possible we power our factories with renewable energy.

2. PROGRESSIVE, SAFE WORKPLACES

We respect the human rights of everyone who contributes to our business, and go the extra mile to ensure our facilities and factories are safe, fair, and pleasant places to work. This means going beyond legal requirements for safety and security in the markets in which we operate.

3. A TRANSPARENT SUPPLY CHAIN

Our responsibility extends beyond our own factory walls. That is why we aim to secure a transparent and controlled supply chain and work with only a handful of suppliers whom we know and trust. To ensure our high standards, we have brought many of the steps in the production of our zirconia in-house.

4. RESPONSIBILITY NOT CLAIMED, BUT CERTIFIED

Signity is certified by the Responsible Jewellery Council.

SUPPLY GUARANTEE

At Signity, we take care of our customers needs. You need top quality stones in a large quantity and in a short lead time? We supply the service you need. You do not have to spend time sourcing your product. You will not face lost sales due to product shortage. Every single delivery provides the same top standard in product quality and calibration.

PRODUCT ASSORTMENT

Our wide product assortment contains highest quality stones with and without a Star effect. We offer specially sorted zirconia stones for stone- or chain-setting machines, as well as stones with a thicker girdle for more weight or higher robustness in the setting process.

PRODUCT QUALITY

All our product lines guarantee best in class quality. We design our products to allow highest possible efficiency in the jewelry production process and reduce breakage and reworking to a minimum. We guarantee highest quality and stone consistency throughout our entire range of products, ensuring smooth production processes of our customers. You will receive all sizes and all quantities in perfect order.

DELIVERY AND RELIABILITY

Unforeseen delivery issues due to missing or delayed stones can result in a loss of sales. Do not risk disappointing your customers. Dealing with these issues costs time and money.

Many jewelry producers worldwide rely on us, because they increase both their efficiency and their level of reliability in terms of serving their customers.

TECHNICAL EXPERTISE & SUPPORT

Being the world's largest supplier of machine-cut zirconia, we have a broad experience in different stone setting technologies. We serve customers worldwide in various segments who work with all kinds of metals and technology.

We support our customers with our knowledge and we are in a position to offer quick support in order to solve technical problems.

EQ PRODUCT LINE QUALITIES

Highest brilliance in class, our EQ Product Lines offer a very good result in fire, brightness & scintillation.

Cutting style: up to 0.95mm 16/24; 1.00 - 1.45mm 24/24; above 1.45mm 24/32.

Tight size tolerances of +/- 0.03mm support an easy & fast setting process; no additional sorting is necessary, the risk of losing stones during the setting process is minimized.

Highest girdle consistency leads to faster setting and less breakage during production.

Cut out of excellent rough prevents discolorations during production process.

EQ

EQ is the standard quality with a very consistent and exact defined girdle

EQ Star

EQ Star comes with the best star pattern which automatically leads to the highest brilliance in class

EQ Heavy Star

Version of EQ Star for applications in which heaviest weight combined with the best star effect is required

Jewelchain Quality

Special designed version of both EQ and EQ Star to fit highest requirements of Jewelchain setting machines. Technical development in cooperation with leading setting machines manufacturers

JCQ – JEWELCHAIN QUALITY ZIRCONIA

Especially for Jewelchain and mechanical stone setting manufacturers, Signity has developed the JCQ – Jewelchain Quality – zirconia product line. JCQ zirconia stones are optimized for use in chain making and automatically stones setting machines. The precise Round JCQ cut maximizes brilliance as well as prevents machines from stopping, thus reduces production time and ultimately decreases overall production cost.

JCQ zirconia is available in both product lines – EQ and EQ Star.

PACKAGING

We take great care in the handling and packaging of our products. As a guarantee of quality and security, a special seal ensures that your Signity product is original.

Bar coding

To guarantee the quality of our products, and help to trace the history of an order, each of our packages is tagged with a unique bar code label.

Trustseal

Our specially created Trustseal secures each product package and verifies the authenticity of our products. The complex design of the seal is similar to a hologram, making it virtually impossible to imitate.
